

An initial comparative view across the Trust

Every academy is benchmarked against its own appropriate peer group

PORTFOLIO OVERVIEW

The Botanical Multi-Academy Trust indices provide a portfolio-level reference point. They do not have a Trust peer ranking or quartile, as they represent the consolidated average of the academies within the Trust.

Each individual academy, however, is benchmarked against its own specific peer group, shown beneath the academy's name. Its Index, rank and quartile are therefore calculated within that peer group.
